Abstract

Text of abstract Text of abstract

1. First Section

1.1. First Subsection

Please see Persian template for information on preparing the paper

Definition 1.1. This is a definition $\sin^2 x + \cos^2 x = 1$.

Theorem 1.2. *This is a theorem [6].*

Proof. This is a proof. □

You can refer to different items like this, Theorem 1.2.

Lemma 1.3. *This is a lemma.*

Some Text

Proposition 1.4. *This is a proposition.*

Corollary 1.5. *This is a corollary.*

Example 1.6. *This is an example.*

Solution. *This is a solution [1].*

Remark 1.7. *This is a remark.*

2. Second Section

See Figure 1 for example.

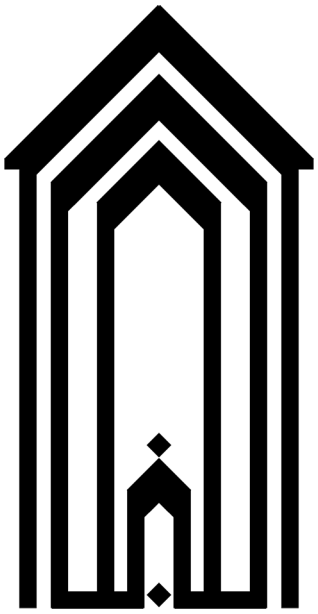

Fig. 1. A test figure.

See Table 1 for example.

Table 1. A test table.

1st col.	2nd col.	3rd col.
	$x^2 + 1$	6
−20	y	11
−12	$x + y$	7

A mathematical formula

$$\sin^4 x + \cos^4 x = 1 - 2\sin^2 x \cos^2 x.$$

A formula with cross-reference:

$$y = (\sqrt{x} + 1)(\sqrt{x} - 1)(x + 1) \tag{1}$$

Multiline formula:

$$\begin{aligned} y &= (\sqrt{x} + 1)(\sqrt{x} - 1)(x + 1) \\ &= (x - 1)(x + 1) \\ &= x^2 - 1. \end{aligned}$$

Multiline formula with one cross-reference number:

$$\begin{aligned} y &= (\sqrt{x} + 1)(\sqrt{x} - 1)(x + 1) \\ &= (x - 1)(x + 1) \\ &= x^2 - 1 \end{aligned} \tag{2}$$
